

Sugar surfactants for maximum performance GLUCOPURE™

Discover GlucoPure™ SUGAR SURFACTANTS FOR **MAXIMUM PERFORMANCE**

Sustainability is a key driver for new product developments in the Home Care industry. The consumer however is not willing to sacrifice cleaning efficiency since performance is still the single most important feature in any Home Care product.

And that is why Clariant has developed GlucoPure[™], the new generation of sugar surfactants, allying the known green profile of this class of raw materials with a top cleaning performance.

GlucoPure[™] is the next generation of sugar surfactants. Based on sugar and natural oils such as RSPO certified palm oil or sunflower oil, GlucoPure[™] presents a Renewable Carbon Index of up to 96%.

ECOSAFE

GlucoPure[™] has a very low impact on aquatic life. Its Critical Dilution Volume (CDV) is by far lower than the one of betaines or amine oxides. GlucoPure[™] Sense is one of the few surfactants in the market which doesn't show any skin or eye corrosion.

PERFORMANCE

GlucoPure[™] doesn't compromise on performance. You can finally have a surfactant with a truly green profile and a top cleaning effect. Our application tests show a much superior cleaning performance when compared to alkyl polyglycosides.

MILD

GlucoPure[™] is one of the mildest surfactants in the market. Zein tests proved this surfactant to be milder than traditional surfactants such alkyl ether sulfates, alkylsulfates and even betaines.

GlucoPure[™] is **RENEWABLE**

GlucoPure[™] Sense THE NEWEST ADDITION TO THE GLUCOPURE LINE

GLUCAMIDES

Glucamides are the next generation of sugar surfactants. Built from glucose and natural oils, those co-surfactants have a Renewable Carbon Index (RCI) from 94% to 96% and present a top cleaning performance that matches current non-green alternatives in the market.

GlucoPureTM Sense is based on sunflower oil

Oleyl Glucamide has more than 96% of Renewable **Carbon Index**

FATTY ACID ESTERS OR TRIGLYCERIDES 0 OH OH OH CH₃ OH OH Available in RSPO Mass Balance quality 100% RENEWABLE GLUCOSE IIXED RSPO-1106234

GLUCOPURE™ SENSE

GlucoPure[™] Sense is based on sunflower oil grown and harvested in Europe. It delivers unparalleled mildness to hand dishwashing liquid detergent. Being one of the only surfactants without any impact on skin and eye corrosion, it is suitable for mild and safe formulations.

- · High foam mileages in hard and soft water
- · Very mild to human skin
- · Allows no irritant/corrosive label keeping the performance
- · Excellent eco-toxicological profile
- \cdot Mostly based on sunflower oil, a nontropical source which is not under public scrutiny
- · Easy to thicken
- · Sunflower oil regionally sourced in Europe
- · Excellent mildness sensorial

GlucoPure™ RANGE

GLUCOPURE[™] SENSE

GlucoPure[™] Sense is based on sunflower oil grown and harvested in Europe. It delivers unparalleled mildness to hand dishwashing liquid detergents. As it does not contribute to skin and eye corrosion, it allows the creation of non-irritant formulations.

BASIS = R	Sunflower Oil
APPLICATION	Hand dishwashing liquid detergents
CONSISTENCE AT 25 °C	Liquid
TRANSPARENCY AT 25 °C	Clear
ACTIVE CONTENT CALCULATED	52%
SOLVENT	Propylene glycol/Glycerine = approx. 35%

GLUCOPURE[™] DEG

GlucoPure[™] Deg presents the same performance profile of the GlucoPure[™] Foam, but is commercialized with more than 60% active content and approximately 10% of ethanol.

BASIS = R	C12/14 methylester
APPLICATION	Hand dishwashing liquid deterg
CONSISTENCE AT 40 °C	Liquid
TRANSPARENCY AT 40 °C	Clear
ACTIVE CONTENT CALCULATED	60-65%
ETHANOL	9-11%

GLUCOPURE[™] FOAM

GlucoPure[™] Foam is the perfect combination of sustainability and performance for hand dishwashing liquid detergents, with the additional benefits of no aqua toxicity labelling and skin mildness.

BASIS = R	RBD coco oil
APPLICATION	Hand dishwashing liquid detergents
CONSISTENCE AT 40 °C	Liquid
TRANSPARENCY AT 40 °C	Clear
ACTIVE CONTENT CALCULATED	37-44%

GLUCOPURE[™] WET

GlucoPure[™] Wet combines fast soap scum removal and mildness to plastic materials to give you the most suitable co-surfactant for bathroom cleaners and hard surface cleaners in general.

BASIS = R	C8/10 Methylester
APPLICATION	Hard surface cleaners, bath clean
CONSISTENCE AT 25 °C	Liquid
TRANSPARENCY AT 25 °C	Clear
ACTIVE CONTENT CALCULATED	47-53%

NO AQUATOX LABELLING FOR GLUCOPURE™ FOAM, DEG AND WET

GlucoPure[™] products allow formulations with low aquatic toxicity consistent with current EU regulations. All GlucoPure[™] grades are suitable for common European Ecolabels as EU Flower and Nordic Swan. All GlucoPure grades are Ecocert-Detergent certified.

PROPERTIES	COCAMIDOPROPYL BETAINE	COCO BETAINE	LAURAMINE OXIDE	GLUCOPURE™ FOAM / DEG / WET
Readily biodegradable	Yes	Yes	Yes	Yes
RCI (%)	63	75	86	>95
GHS labelling (Globally harmonized system of classification and labelling of chemicals)	H 412 Harmful for aquatic organisms, long term effect	H 412 Harmful for aquatic organisms, long term effect	H 400 Very toxic for aquatic organisms H 411 Toxic for aquatic organisms, long term effect	No aquatox label

ZEIN TEST

The Zein test shows that GlucoPureTM is among the mildest surfactants towards skin, milder than alkylsulfates and betaines, and on the same level as APGs.

NO IRRITANT LABEL FOR GLUCOPURE[™] SENSE!

GlucoPure[™] Sense! allows formulations with no irritant label according to the GHS labelling system.

Lauryl-Polyglycoside

GlucoPure[™] enables **HIGH PERFORMANCE**

PLATE TEST - TRADITIONAL CONCENTRATED DISHWASHING DETERGENT (IKW II - Grease)

GlucoPure[™] presents almost the same level of performance of betaines in a SLES system and the same ecological profile as APGs.

EcoTain[®] **PROTECTING THE MOST PRECIOUS RESOURCE -OUR FUTURE**

Strong, smart and sustainable – **OUR MILD SUGAR** SURFACTANT

Our GlucoPure product range consisting of Foam, Deg, Wet and Sense offers a unique combination of sustainability and best performance without making you compromise, meeting the non-renewable based benchmarks in the market while being made of 95% of renewable carbon.

- · Enables Nordic Swan certification by allowing milder formulations
- · Ecocert approved

THE ECOTAIN® LABEL OUR APPROACH TO SUSTAINABILITY

EcoTain® is our label for sustainability excellence products and solutions showcasing best-in-class performance. They highlight our contributions to a sustainable future and add value to our customers and society as a whole.

Each product and solution carrying the EcoTain® label has undergone a systematic, in-depth screening process using 36 criteria in all three sustainability dimensions: social, environmental and economic. Through this process, EcoTain® sets an ambitious benchmark, which distinguishes products that significantly exceed market standards in general and have best-in-class performance in one or several criteria screened. We evaluate the overall benefits and impacts across the entire value chain and product life cycle.

By uncovering value-adding sustainability benefits, EcoTain® empowers our customers to differentiate at the market and contributes to achieving their sustainability targets.

EcoTain® inspires and helps us realize our vision of becoming the global leading company for specialty chemicals. We will reach this goal by making meaningful contributions to our customers and society as a whole through outstanding offerings and by continuously developing our product portfolio towards sustainability excellence.

ADDRESSING MEGATRENDS AND SOCIETAL NEEDS

Reflects trend towards renewable feedstock instead of fossil fuel based ingredients

RESOURCE EFFICIENCY AND ENVIRONMENTAL PROTECTION

· Highly efficient, improving directly the material efficiency in the use phase · Multifunctionality enables using less components such as diluents · Readily biodegradable (biodegradation >80% in 28 days according to OECD 301 B) · Reduced effects on aquatic life and skin

- · Reduced formulation complexity due to
- · Increased cleaning performance of detergents
- · Better viscosity and appearance control
