

Invitation

GIFA

JUNE 16-20, 2015 DÜSSELDORF

CLARIANT

We're supporting a sustainable foundry industry
at Booth C13 Hall 12

Discover Clariant LE Technology – our unique low emission technology for green sand casting – at GIFA 2015.

GEKO® LE and ECOSIL® LE – our two-tiered bentonite solution – allow foundries to reduce BTEX emissions from their green sand system by up to 80% and produce highest quality castings at optimum productivity. Being a good neighbor and having an optimized total cost of ownership was never this easy!

Because sharing our dedication to sustainability doesn't stop here, you can also join us in reclaiming our LE landscape at GIFA 2015. Visit our booth to plant a tree and watch it grow. You'll be amazed at what we can achieve together.

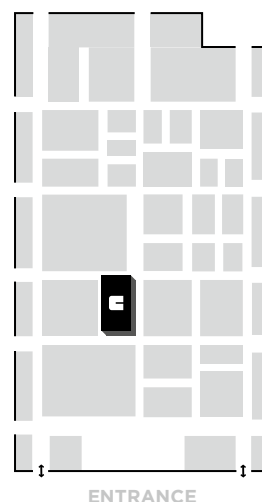

We look forward to seeing you in Düsseldorf.

We're celebrating the launch
of Clariant LE Technology with
live presentations every day at
Booth C13 Hall 12.

EVERY DAY

10.30-11.30, »LE Story«
15.30-16.30, »Specific additive
consumption «
